

Generative AI (GenAI)

Introduction

Anish Chapagain

Generative AI

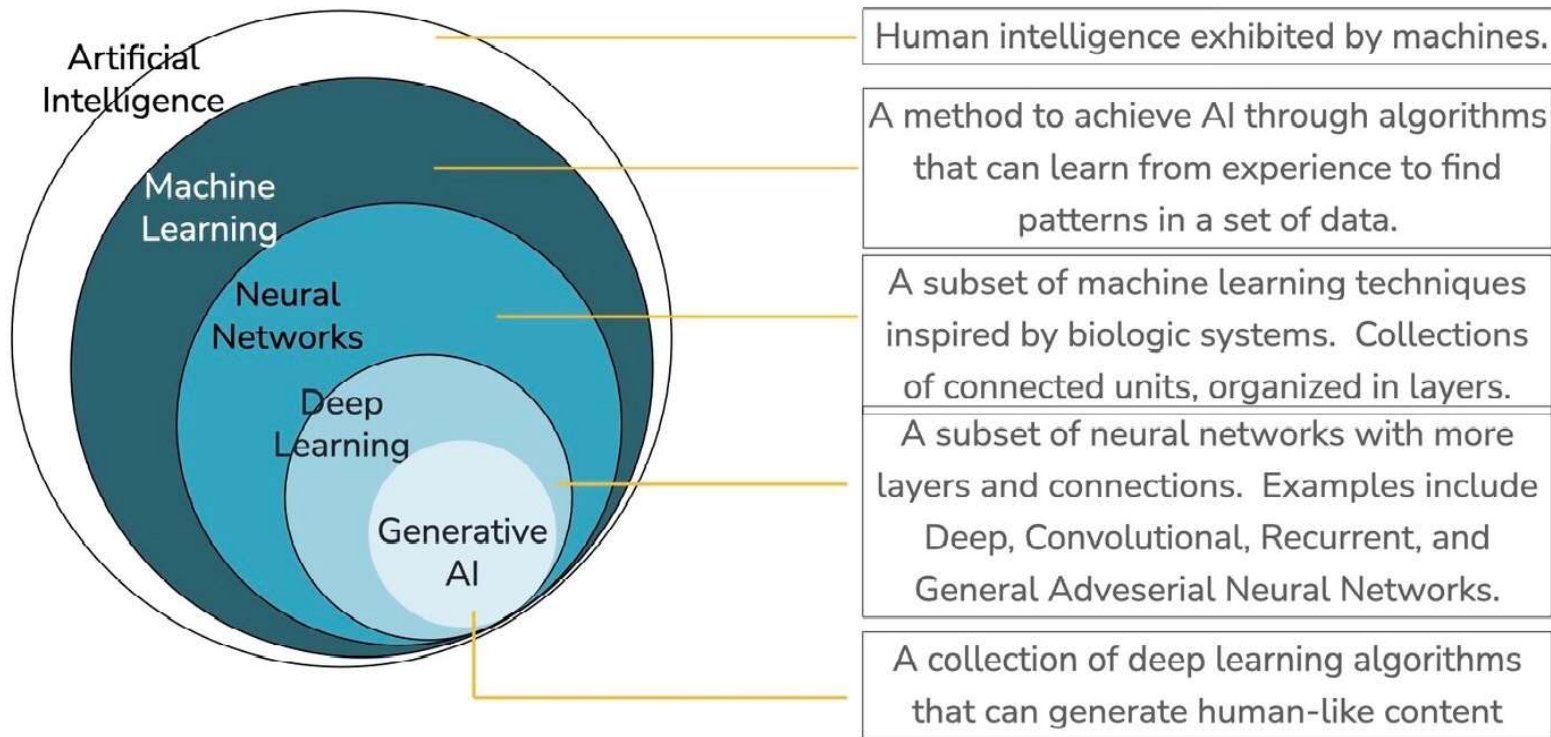

AI.....Buzz_{zzzzzz}

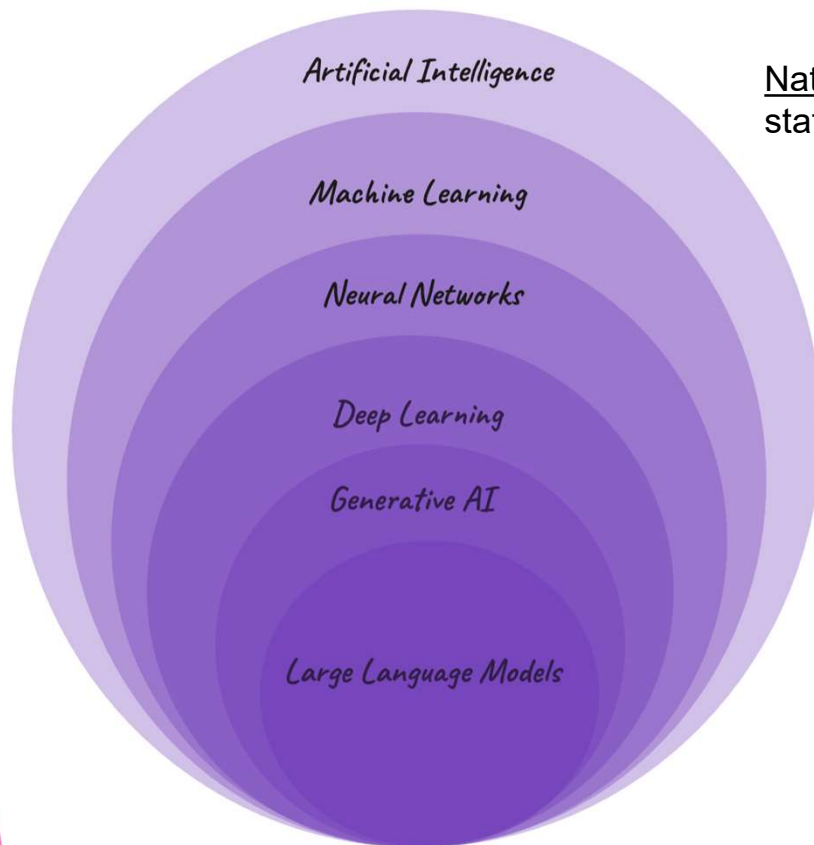

Generative AI

- ▶ GenAI is a type of **AI** that can create or generate new content, such as text, images, or music.
- ▶ It uses models trained on **large** datasets to generate realistic and creative outputs.
- ▶ GenAI learns from lots of information to become creative.
- ▶ GenAI is still new, but it's getting better and better.

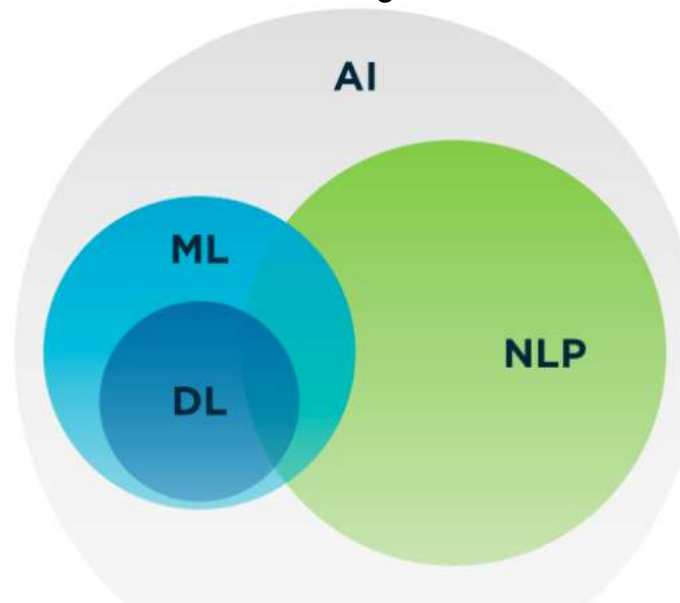

Generative AI

Generative AI

Natural Language Processing is a type of AI that uses rules and statistics to understand and generate human language.

Large Language Model is a type of machine learning model that uses deep learning and large amounts of data to generate human-like text.
